INTERNATIONAL PRELIMINARY EXAMINATION REPORT

International application No. PCT/BE 03/00108

I. Basis of the report

1. With regard to the **elements** of the international application (*Replacement sheets which have been furnished to the receiving Office in response to an invitation under Article 14 are referred to in this report as "originally filed" and are not annexed to this report since they do not contain amendments (Rules 70.16 and 70.17)*):

Description, Pages

1-34 as originally filed

Claims, Numbers

1-29 received on 30.06.2004 with letter of 30.06.2004

Drawings, Sheets

1/16-16/16 as originally filed

2. With regard to the **language**, all the elements marked above were available or furnished to this Authority in the language in which the international application was filed, unless otherwise indicated under this item.

These elements were available or furnished to this Authority in the following language: , which is:

- ☐ the language of a translation furnished for the purposes of the international search (under Rule 23.1(b)).

- ☐ the language of a translation furnished for the purposes of international preliminary examination (under Rule 55.2 and/or 55.3).

3. With regard to any **nucleotide and/or amino acid sequence** disclosed in the international application, the international preliminary examination was carried out on the basis of the sequence listing:

- ☐ contained in the international application in written form.
- ☐ filed together with the international application in computer readable form.
- ☐ furnished subsequently to this Authority in written form.
- ☐ furnished subsequently to this Authority in computer readable form.
- ☐ The statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.
- ☐ The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.

4. The amendments have resulted in the cancellation of:

- ☐ the description, pages:
- ☒ the claims, Nos.: 30,31
- ☐ the drawings, sheets:

International application No. PCT/BE 03/00108

1. Claim 1 (claim of apparatus type) and claim 26 (claim of method type) do not fulfil the requirements of Article 6 PCT, in that their scope is broader than what is justified by the description and the drawings.

The description states that the current application relates to a refresh circuit (and a corresponding method) for active matrix displays (see description, page 1, line 1-4).

Moreover, In the light of the description the following feature appears essential in order to establish the existence of the technical problem addressed by the invention (i.e. to avoid the build up of a DC component in the liquid crystal medium contained in the pixels of the display)

- The display is based on liquid crystal medium (page 1, lines 18-31)

Since the apparatus of claim 1 and the corresponding method of claim 26 are not defined as related to an "active matrix liquid crystal display", their scope is broader than it is justified by the description.

2. However, it is noted that if claim 1 were amended by defining the apparatus a "liquid crystal active matrix device", such an amended claim 1 (and a correspondingly amended claim of method type) would fulfil the requirements of Article 6 PCT.
